

Piling and Ground Beams, Phase 3 Hilton Park, Askern

AARSLEFF

Hilton Park is a brand new development of 2, 3 & 4 bedroom homes situated in the historic former Spa town of Askern. This exclusive development is an ideal place for all generations to live and is located within walking distance of Askern town centre. Aarsleff Ground Engineering have now completed the third phase of piling and ground beams foundation package for the development, having commenced the first phase back in 2016. Contracted by MJ Gleeson, Aarsleff returned to site again in August 2018, installing 40No. steel

tube piles, 63No. precast concrete piles and 398Lin/m of ground beams utilising the Banut 300 piling rig and a 55t crawler crane. Nathan Follows, Aarsleff’s Ground Beams Manager added: “Our bespoke Precast Concrete Ground Beam is manufactured in a quality controlled environment, and is fully warranted together with all of Aarsleff’s piling solutions. Over the course of two years and three phases of residential development, Askern allowed us to truly demonstrate the benefits of such a system”.
