AARSLEFF CONSTANTLY BUILDS ITS POSITION AS A RESPONSIBLE EMPLOYER, ENJOYING A GOOD REPUTATION AMONG BOTH THE EMPLOYEES AND CANDIDATES.

This brochure describes the career options available to you at Aarsleff Ground Engineering and our unique working culture. We'll start with a little about us...

Aarsleff Ground Engineering is a subsidiary of Per Aarsleff A/S, one of Denmark's leading civil engineering contractors. Entering the UK market in 1991, the company has grown rapidly to become one of the leading specialist multidisciplinary ground engineering contractors.

Aarsleff's expertise as Ground Engineers is evidenced by its impressive project portfolio, its dedicated staff, and in the decades of satisfied customers who have come to expect nothing but the best from Aarsleff Ground Engineering.

Aarsleff has an impressive UK-based fleet of plant and equipment for all its services and also has access to Europe's largest fleet of ground engineering rigs. From small 10-pile solutions, through to multi-million pound installation projects, Aarsleff brings a wealth of knowledge and experience to any project.

Aarsleff works within the commercial, rail, infrastructure, energy and residential sectors, and its philosophy is to offer a comprehensive package of multi-discipline operations, that ensures the best service, quality, safety and value. Its full in-house technical, estimating, design, manufacture and installation teams gives Aarsleff the capability to design and install various types of solutions for a variety of clients and project.

Aarsleff invest in its staff and encourages each individual to expand on their skills by undertaking further training and development to enable them to reach their full potential. This is available to all employees regardless of their standing within the company.

Are you looking to work with Aarsleff? Our employees are our most valuable asset, and we are always looking for the most talented people to join our fantastic team.

“

It's an exciting time
to join Aarsleff Ground
Engineering. We have a
clear vision for our future,
one that you could be a
part of.

”

Insights from our Team

The type of career you want should be closely aligned with your knowledge, aptitude and interests - and also with your ambition, personality and values. If you share our values and want to make a difference we'd love to hear from you -

Kevin Hague, Managing Director

Ambitious, hard-working individuals are the life-blood of Aarsleff Ground Engineering and we truly understand, and really value, the importance of identifying and nurturing our rising stars -

Heather Jones, Business and HR Manager

Culture

Aarsleff have an approach to business that is both rare and refreshing in this modern time of demanding results, when profit is sometimes put before the employee's happiness. A culture is the character and personality of an organisation. It's what we believe makes Aarsleff unique and is a powerful element that shapes our work environment and processes.

WE ENCOURAGE OUR STAFF TO CONTRIBUTE, NOT JUST TO THE PROJECTS WE WORK ON, BUT ALSO TO THE WAY OUR COMPANY OPERATES, EVOLVES AND GROWS.

Which path to choose?

Talented and enthusiastic individuals are vital to the ongoing success of Aarsleff Ground Engineering. Join a team of highly skilled professionals who are ready to support you through the early stages of your career. Take responsibility, work on interesting and challenging projects and help shape how we evolve. We believe we have a career path to suit everyone, whether you come to us already qualified, through work experience, industrial placement, or our Graduate and Apprenticeship scheme. Discover your route to success with Aarsleff Ground Engineering.

Career

We have exciting and challenging opportunities across our offices. Take a look on our careers page of our website to see what opportunities we have.

Graduate Scheme

Aarsleff's Graduate Scheme enables young talents to develop their careers, not only in technical excellence but also other aspects of equal importance such as commercial awareness, mentoring of others, and contributing positively to the growth and development of Aarsleff into the future. We have an accredited training programme that will enable you to qualify in the minimum period of two years.

Apprenticeship Training

Apprenticeship training will enable you to gain excellent skills and experience. We'll support you in setting the foundations for the future, and encourage you to show us what you can really do.

Placement Year

You don't need to wait until graduation to start your journey with Aarsleff Ground Engineering. If you're enrolled on a sandwich course and you're looking for a placement that will prepare you for the working world with experience gained on real life projects, you might wish to apply for one of our Placement schemes.

Internship/Work Experience

For those who are already studying or thinking about a career in engineering and construction, work experience offers you the chance to see what the day job is actually like. During your placement, you will gain valuable skills and you will get the chance to develop your self-confidence and communication skills. This will help you to work better with other people in both your continuing studies and your future career.
